SURFCAT

Introducing the Ceasar Surfcat, the only dedicated Surf Life Saving & Rapid Response Boat from the Ceasar Marine Inflatable Range. Today, the Ceasar Surfcat is used in many southern hemisphere countries for major surf rescue services, fire departments, and police forces as an emergency craft. The versatility and comfort are what you would expect from a Ceasar product. Fully inflatable, the boat rides on built-in hijackers, allowing it to plane quickly, minimizing the area in contact with the water thus enabling higher speeds using a smaller engine. The power to weight ratio offers amazing fuel efficiency. An incredibly stable craft at speeds, and rest due to its catamaran design, the Ceasar Surfcat gives a softer re-entry, by absorbing the short chop. The catamaran design also allows the boat to change direction quickly and more precisely; cornering as if it were on rails with no leaning.

Reassuringly safe, seaworthy, buoyant and stable, the Ceasar Surfcat is tubed in high quality PVC. It comes with 7 built-in foot stirrups to provide secure seating for crew, along with its fast drain transom allowing the crew to concentrate on their primary mission.

SPECIFICATIONS:

Length Overall	4100mm
Beam Overall	1900mm
Weight	70kg
Max Hp	55HP
